***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claim 108, drawn to a method for preparing a catalyst, classified in class 502, subclass 104+.
  - II. Claims 109-116, drawn to a method for preparing a C<sub>2</sub> to C<sub>4</sub> alkene or a substituted C<sub>2</sub> to C<sub>4</sub> alkene using a catalyst, classified in class 585, subclass 418+.
  - III. Claims 117-119, drawn to a method for preparing acetic acid from substituted or unsubstituted ethane using a catalyst, classified in class 562, subclass 607+.
  - IV. Claims 120-122, drawn to a method for preparing vinyl chloride from substituted or unsubstituted ethane using a catalyst, classified in class 570, subclass 224+.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III, and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions produce different products, that is the product obtained from the method of Group I is not the same as the product obtained by the method of Group II, III, IV, etc. The products are different from each other.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, III, IV, etc. and have acquired a

Art Unit: 1754

separate status in the art as shown by their different classification, and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
